

Grytåi

Grytåi Power Plant is a small hydroelectric power plant by Napevatn lake in Nissedal municipality, Telemark county.

Grytåi Power Plant is located right by the dam and the intake to Fjone Power Plant. It is a run-of-the-river power plant that utilises a 119-metre waterfall. The installed output is 0.85 MW. The power plant has a Pelton turbine with a maximum flow rate of 0.87 m³/s. The penstock is approx. 930 m long and has a diameter of 600 mm. A 4.2 km, 22 kV cable system has been built from Fjalestadgrendi to the Grytåi mini power plant. A minimum flow requirement of 43 l/s applies at the Grytåi intake. The catchment area is 18.7 square kilometres.

Owner: Skagerak Kraft, 100%.

Produksjon
2.6 GWh

Effekt
0.85 MW

I drift (år)
2012
