

# Solhom

Solhom Power Plant is located in Kvinesdal municipality in Vest-Agder county.

The power plant was part of the third stage of the Sira-Kvina development, and was completed in 1974.

The station is well hidden, 1,200 metres inside the mountainside. It utilises a 215-metre waterfall between Nesjen/Kvifjorden and Holmstølvannet in Kvina river. Homstølsvann is an intake reservoir for Tonstad Power Plant.

Solhom Power Plant has two generators, each with a 100 MW Francis turbine. Owners: Lyse Produksjon AS 41.1%, Statkraft 32.1%, Skagerak Kraft AS 14.6%, Agder Energi AS 12.2%.

**Produksjon**  
695 GWh

**Effekt**  
200 MW

**I drift (år)**  
1974

**Fallhøyde**  
215 m
